APPitic Website

The screenshot shows the APPitic website interface. At the top, the APPitic logo is displayed with the tagline "APP LISTS FOR EDUCATION". Social media icons for Twitter, Facebook, Google+, Pinterest, YouTube, and a graduation cap are visible. A navigation menu includes categories like THEMES, PRESCHOOL, SPED, CBL, FLIPPED, BLOOM (selected), MI, NETS, TEACHER, and WEBCAST. The main content area is titled "BLOOM'S TAXONOMY" and features a banner with a lightbulb and the text "SCHOOL TAXONOMY". Below the banner, there are four columns of app listings categorized by Bloom's Taxonomy levels: Creation (86), Evaluation (48), Analysis (47), and Knowledge (60). A sidebar on the right contains a search bar and a "Bloom's Taxonomy" filter menu with options for Creation, Evaluation, Analysis, Knowledge, Comprehension, and Application. At the bottom right, there is an "iTunes U" section.

Remember

- Apps that improve the user's ability to define terms, identify facts, and recall and locate information.
- They ask users to select an answer out of a line-up, find matches, and sequence content or input answers.

Remember Apps

Skitch

Evernote

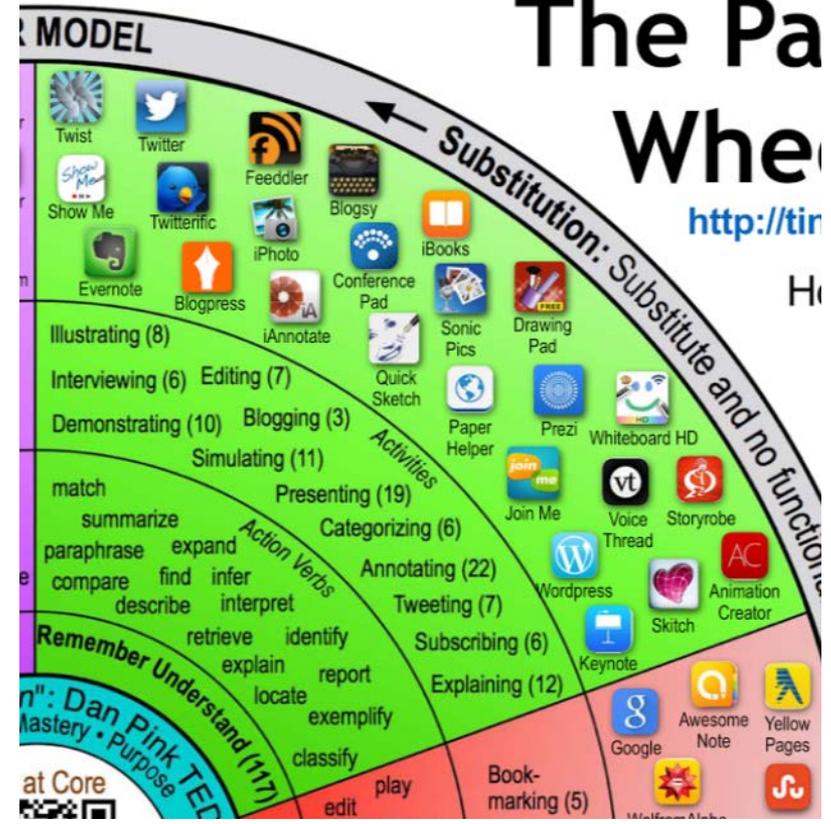

Quizlet

Understand

- Apps that provide opportunities for students to explain ideas or concepts.
- They step away from the selection of a "right" answer and introduce a more open-ended format for students to summarize content and translate meaning.

Understanding Apps

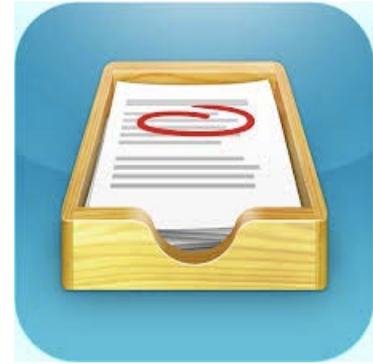

Tellagami

Kidblog

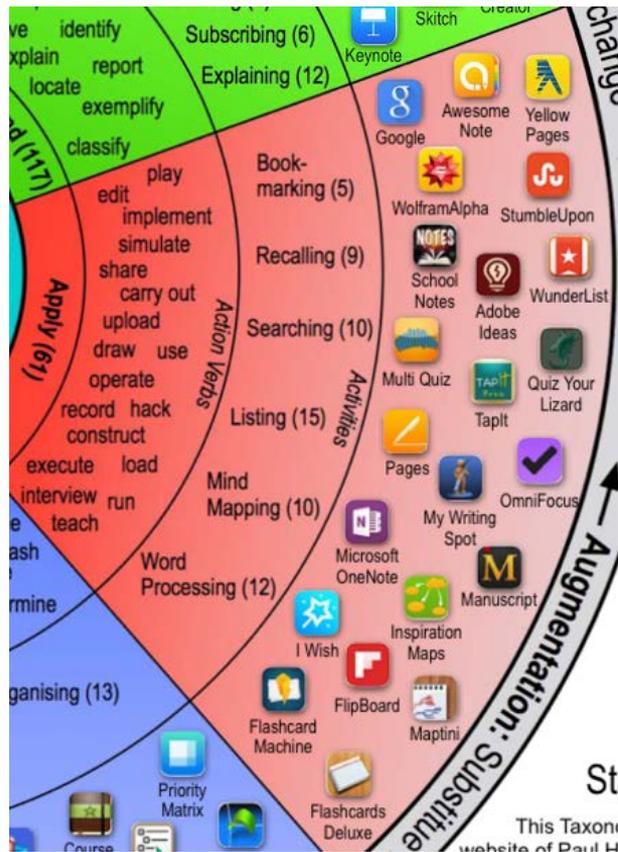

Showbie

Apply

- Apps that provide opportunities for students to demonstrate their ability to implement learned procedures and methods.
- They also highlight the ability to apply concepts in unfamiliar circumstances.

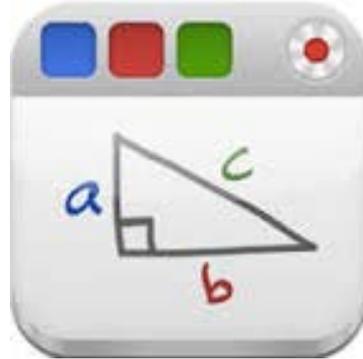

Apply Apps

Drawing Box Free

Educreations

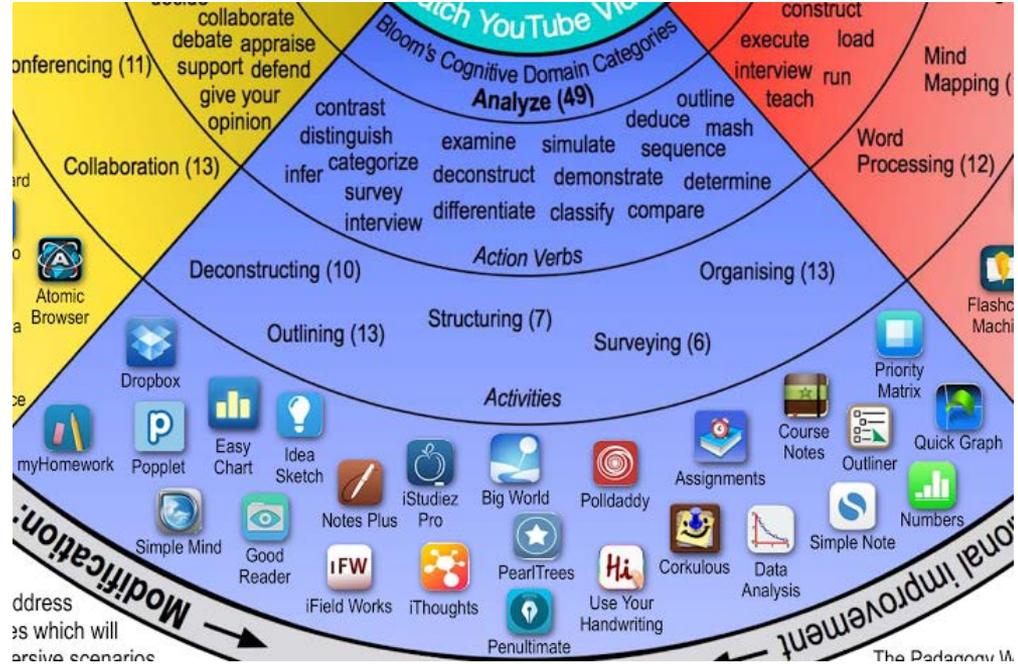

Prezi

Analyze

- Apps that improve the user's ability to differentiate between the relevant and irrelevant, determine relationships, and recognize the organization of content.

Analysis Apps

Poplet

Numbers

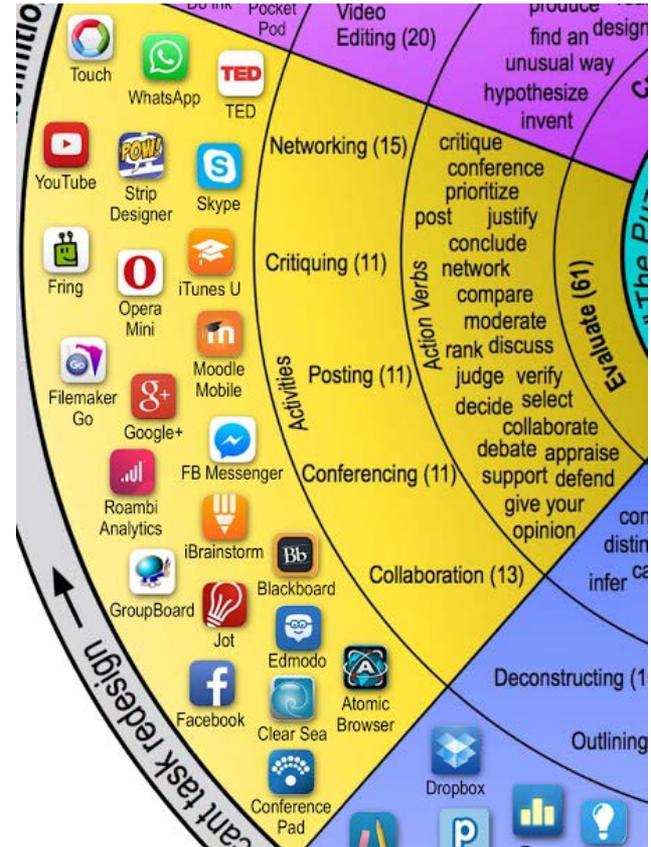

Quick Graph

Evaluate

- Apps that improve the user's ability to judge material or methods based on criteria set by themselves or external sources.
- They help students judge content reliability, accuracy, quality, effectiveness, and reach informed decisions.

Evaluate Apps

iBrainstorm

Google+

Groupboard

Create Apps Part 1

Toontastic

Explain Everything

iMovie

Create Apps Part 2

Strip Designer

FlipBook

Puppet Pals 2

Coding Apps

Kodable

Scratch Jr.

Hopscotch

Many More Apps
