

## ANTICIPATION GUIDE

### Identify Effective Interventions for Struggling Students

Read each statement and check whether you think it is true or false.

Statement	True	False	Reason
1. Repeat the same content of the core class.			
2. Develop a schedule that breaks content into small “chunks”.			
3. Provide frequent data checks to determine standards-based interventions.			
4. Provide challenging content.			
5. Identify interventions for students that varies depending upon students who “can’t do” or students who “won’t do”.			
6. Provide learning strategies that actively engage students in content.			
7. Use strategies that the teacher believes works best.			
8. Provide learning strategies at a slower pace.			
9. Teach skills differently to meet specific student learning needs.			
10. Use teaching strategies that are research-based.			
11. Allow students to partner to process and discuss learning.
